Extinguishing mediocrity online since 1999

Time to **upgrade** your fireplace?

Black crystals with black enamel inner panels

The **Regency E18 B-Vent Gas Insert** is designed to meet the demands of homeowners who want to replace an older decorative open gas fireplace with today's clean face design and modern efficiency. Ideal for condos, townhouses and detached homes, the Regency E18 installs using existing venting and requires minimal renovations. No changes to existing exterior venting are needed and you can keep your fireplace surround finish*.

Log set with rustic brown brick inner panels

Volcanic stones with black enamel inner panels

*Fits the most common B-vent factory built fireplace openings; (includes: Montigo Econo Plus 28C, Montigo 28F, Montigo EP28, Montigo 36SR, Firesong 120N, Firesong 220N.) Refer to the Regency E18 manual for applicable units or additional installation solutions on other units. Note: Finished appearance and installation requirements will vary between models being replaced, existing venting and opening size. The images shown are displaying the Regency E18 B-vent Gas Insert replacing a Montigo 28-F2. Contact your local authorized Regency dealer for more information. Patent Pending.
