

Augusta
Clean Face Gas Insert

Elegance & Style

Built Vermont Proud and Strong

Introducing the Augusta Clean Face Gas Insert

There is a special place in the heart of Vermont where time seems to stand still. Here, the traditions of family, friends and fire come together to create some of the warmest seasons of the year. While heritage plays an important role in the products we create, we also understand that sometimes change is good. Now, Vermont Castings is proud to offer you our Augusta Clean Face Gas Insert - crafted with the same fine attention to detail and Vermont Castings pride that makes each of our products a special part of your home. The Augusta offers numerous features including the Total Signature Command™ System - providing cold climate pilot optional setting, electronic ignition and A/C control with battery back up to ensure that your insert works even in a power outage. With 32,000 BTUs and additional options such as trim styles and optional decorative doors, the Augusta is a beautiful addition to any room. Embrace change and replace your inefficient masonry fireplace with our new Augusta gas insert - if we can change, we know you can too!
