

Louverless clean-face design delivers the elegance of traditional masonry with a dynamic flame, ember bed and log set that create a realistic and incomparable fire presentation.

LENNOX
HEARTH PRODUCTS

ELITE® SERIES

ELDV-45 shown with standard charcoal trim.

■ The Elite® Series ELDV gas fireplace from Lennox is the perfect blend of traditional styling and modern hearth technology.

With the look and feel of a classic masonry fireplace, the clean and elegant louverless design has timeless appeal.

Its vertical aspect ratio and “up-to-the-glass” installation provide a marvelous full view of the dramatic new fire technology.

The tall, glowing flames, the rich, unstructured ember bed and the detailed, campfire-style log set all combine to create

one of the most beautiful and realistic fires available. And with precise flame and heat control, enjoying a fire has never

been so convenient, comfortable and dazzling. ■

STANDARD FEATURES

Deluxe pan burner, with hidden burner ports, and an unstructured ember bed create outstanding realism

Detailed charred oak campfire-style logs imitate the natural look of real stacked wood

Louverless design has a clean, traditional masonry look for timeless appeal

Vertical-aspect glass enclosure panel provides an exceptional view and airtight protection

21,000–30,000 BTU/hr* delivers outstanding flame height and log glow at an energy-efficient burn rate

Adjustable flame height. Choose between millivolt, standing pilot systems or Dexan-battery-backed up intermittent ignition systems that ensure reliable operation—even during a power failure.

Direct-vent chimney system for greater efficiency, exceptional heat output, and cleaner indoor air

Patented, remotely adjustable burner air shutter helps shorten set-up times and allows the fire appearance to be “dialed-in” during installation

Available in three sizes—35", 40" and 45"

Backed by the Good Housekeeping Seal

**Inclusive of turndown rates.*

***Provide a barrier to prevent direct contact with hot glass surface.*

**Annual Fuel Utilization Efficiency (AFUE) is the recognized U.S. rating system for the total efficiency of heating products.

All Elite™ Series gas fireplaces utilize either a Secure Vent™ (rigid) or Secure Flex™ (flexible) 4.5" outer coaxial venting system, and include a limited lifetime warranty.

IMPORTANT NOTES:

As with any heating appliance, fireplace or stove, this appliance is extremely hot during operation. Read and understand all operating instructions before using this appliance. For further information, consult your dealer.

Local conditions, such as elevation, wind, vent configuration and choice of fuel will affect overall appearance of the fire and heating performance. Performance can also vary with home design and insulation, climate, condition and type of fuel used, appliance location, burn rate, accessories chosen, chimney installation and how the appliance is operated.

Diagrams, illustrations and photographs are not to scale—consult installation instructions. Product designs, materials, dimensions, specifications, colors and prices are subject to change or discontinuance without notice.
