

B Vent Fireplaces

MAJESTIC 

B Vent Fireplace Systems

Easily incorporated into any design requirement where the fireplace can be vented straight up and out, adding the beauty and elegance of fire to your home is simple with the B vent fireplace systems from Majestic. The BBV Series offers a 36-inch radiant design with a true 36-inch brick to brick opening that has the largest viewing area in the industry. With 22,000 BTUs, optional bi-fold doors, and a slim 14-inch deep design, these B vent fireplaces from Majestic are a perfect choice for just about anywhere.

With 36- and 42-inch sizes, the SBV Series of B vent fireplace systems from Majestic also offer an expansive view. Both sizes come with standard refractory brick and a Black firescreen. With an impressive BTU range from 29,000 to 31,000, the SBV Series are ideal choices for hard to heat rooms.

400BBV with optional Black Finish bi-fold doors and Tavern Brown firebrick

Give people a place to gather – make fire the focal point of your room again with our B vent fireplace systems from Majestic.

BVPN Designer Peninsula

B Vent Designer Fireplace Systems

The B vent Designer Series of fireplace systems from Majestic offer sophisticated options for today's more contemporary homes. Available in See-Thru and Peninsula models, the Designer Series takes fire to a whole new level. The radiant design allows materials to be placed right up to the edge of the firebox and with optional firebrick backs and sides as well as standard Black trim, these 42,000 BTU fireplaces offer great heating ability and exciting design applications.
