

Merrimack Wood Burning Fireplace Insert

Elegance & Style

Merrimack with Northfield cast iron surround in Classic Black

The Merrimack insert is among the cleanest burning wood inserts available. Turn your wood fireplace into a high efficiency centerpiece with the Merrimack from Vermont Castings.

Merrimack Wood Burning Fireplace Insert

In the Northeast there's a special place where trees burst into flaming oranges, reds and yellows when the air starts to chill. It's the same place where soft white snow will dress the old covered bridges and where family and friends gather together to enjoy hearth and home. Here, the history of wood fire is as old as time itself, and it is here that Vermont Castings was born.

Today, we've woven together this wood burning heritage with contemporary concerns for the environment by creating the Merrimack wood burning fireplace insert. The Merrimack insert turns your wood fireplace into a high efficiency centerpiece, adding the warmth of wood fire and the classic beauty of forged cast iron to your most important gathering place.

The EPA certified Merrimack is among the cleanest burning wood inserts available and offers an amazing array of features and benefits. Bring a piece of this heritage home and you'll find that the warmest seasons of the year are the ones you spend gathered together.

Merrimack with Exeter Steel Surround in Classic Black

Where Heritage and Technology Meet

Nestled in the heart of Vermont is our foundry, where the tradition of fine craftsmanship and attention to detail is alive and well today. Here we combine the tradition of forged cast iron with new technologies to create the timeless beauty and contemporary efficiency that sets Vermont Castings apart.

The ultimate in "SET IT AND FORGET IT" convenience.

If you're looking for an easy and convenient way to ensure a constant heating temperature or burn level without having to continuously monitor your wood fire, the new **Auto Air Control** in the Merrimack wood burning insert is the perfect solution! The **Auto Air Control** allows you to start the fire and then set a desired maximum burn level / heat output – avoiding an over-fire and giving you the peace of mind, comfort and convenience you'd expect from a Vermont Castings.

Standard Features

- 350 sq. in. viewing area — 60% larger than our competition in the same class
- Firebox (gasketed construction), front, and door constructed of the best material for wood-heating; quality cast iron from our Vermont foundry
- 6" flue collar is detachable, secured from outside or inside the firebox, and adjustable for vertical or 30 degree offset.
- Quiet, high-volume heat-activated variable speed circulation fan is included. The power cord can be directed to either side. The fan can be easily cleaned and serviced from the front of the insert. The fan improves circulation of the room air, but is not required to provide heat.
- Burn time up to 12 hours
- Log length: 20" to 22"
- Auto Air Control
- No power no problem — stay warm during power outages
- Rear wheels ease installation
- Easily removable internal baffle for chimney cleaning
- Full refractory lining

Optional Trim Kits

Accessorize your Merrimack insert with these optional trim kits to create a custom fireplace look.

- Northfield Cast Iron Surround (NORCSCB) available in Classic Black for a more traditional hearth look.
- Exeter Steel Surround (EXSSCB) available in Classic Black for a clean, contemporary finish.
