Introducing the new CleanFire 900

Easy, Convenient Operation

The FireStar® combustion controller constantly monitors how the wood is burning and automatically adds air where and when it's needed for easy operation and the cleanest, most efficient combustion.

Easy Refire - saves the coal bed for quick, easy restarts

Burn Time Monitor - helps to estimate when you need to add wood

Clean Reload - Reduces smoke when you open the firebox door to add wood

Text Alerts - be notified when it's time to add wood

Top Performance

Super-heated gases enter the round chamber of the Afterburner and swirl in a turbulent vortex, creating a **fireball** and allowing enough time for complete combustion to occur.

Easy Access

The patented vertical Easy View® Heat Exchanger with hinged door provides full access without the use of tools.

Durability

The titanium-enhanced stainless steel firebox is impervious to corrosion from high-moisture wood, creosote or condensation.

CleanFire 900

TITANIUM STAINLESS STEEL FIREBOX

Mfr's Rated Heat Output Capacity -
350,000 Btu/hr

Firebox Volume - 32 cubic ft

Firebox Dimensions - 42.75"L x 43.5"H x 31.5"W

Door - 22.75"W x 28.75"H

Ash Cleanout Door - 20"W x 11"H

Water Capacity - 420 gal.

Weight - 2,714 lbs

One set of 1-1/4" Supply and Return Ports

Two sets of 3/4" Supply and Return Ports

Bypass Door and Alarm
