Why Napoleon?

Making your life easier... Napoleon fireplaces are designed to provide you absolute comfort and control at the touch of your fingertips. It's that easy. When you install a Napoleon direct vent gas fireplace, you can rest assured that you will enjoy a lifetime of instant ambiance with reliable performance year after year.

An investment you can count on... Your new Napoleon fireplace adds value to your home while at the same time giving you uncompromising comfort. Aside from kitchen and bathroom renovations, fireplaces add the highest return on your home investment.

Create your personal design statement... Surround yourself with a home environment that makes you feel good, relaxed and proud to reflect your decorating style. Hundreds of designer options are available to create the exact statement you have been looking for.

Highest efficiencies, maximum comfort... Years of research, design and testing have enhanced optimum performance allowing many Napoleon products to achieve some of the highest heater rated efficiencies on the market. Napoleon continuously surpasses industry standards not only in appearance but in efficiency and performance. See the benefits of Zone Heating on page 32.

Beautiful fires, best flame in the industry... With advanced burner technology and innovative design, Napoleon's flame and exclusive PHAZER® log sets are so realistic it's hard to tell the difference from a real wood burning fire.

No power? No problem!... We all feel vulnerable when the power goes out. Now you can weather out the storm in the comfort of your own home! A Napoleon gas fireplace requires no electricity to light or operate, a built-in millivolt system or electronic ignition with battery back-up ensures reliability even during power failures.

Authorized dealer support network... With over 3,000 reputable authorized dealers across North America, Napoleon works hard to provide professional, consistent training and technical education to support our dedicated team of professionals.

Outstanding reliable warranty... Each and every Napoleon fireplace is designed and manufactured to strict quality testing standards and backed by the President's Limited Lifetime Warranty, guaranteed to give you the solid performance you deserve. Napoleon is registered under the world recognized ISO 9001-2008 quality system.

We are proud to be recognized as one of Canada's Best Managed Companies and are dedicated to providing quality, home comfort products for over 38 years and counting.

STARfire™ 40

Inspired Design

Created with Napoleon's state-of-the-art gas fireplace technology, the STARfire™ 40 offers the ultimate in performance and design. The clean face front allows a full view of the impressive 40" wide firebox with your choice of either fine detailed PHAZER® logs and charcoal embers or a river rock ember bed. The STARfire™ 40 comes complete with a modulating remote (controls heat, optional blower, exclusive NIGHT LIGHT™), fuel saving electronic ignition with battery back-up and built-in flame/heat control making the STARfire™ 40 a perfect investment for your lifestyle and your home.

Outstanding Features

of Napoleon's Advanced Technology

Advanced Burner Technology

Napoleon's sophisticated burner system offers superior flame technology. Strategically placed burner ports create the most realistic YELLOW DANCING FLAMES® in the industry.

Finely Tuned Precision Valves

Surrounded with a protective cast aluminum jacket, the precision valves allow for ultimate reliability and 100% SAFE GUARD® gas control system.

Minimum 30% savings on **ZONE Heating!** heating costs with Zone Heating

Zone Heating means you are heating the rooms that you use the most with an alternate heat source, like a Napoleon® heater rated gas fireplace. Zone Heating is the obvious solution for families concerned about rising fuel costs.

Outstanding Craftsmanship

Fine details are designed in every aspect of Napoleon® fireplaces... individually handcrafted with pride of excellence to last a lifetime.

Safety Screens

Napoleon®, leaders in design & technology have developed safety screens with aesthetically pleasing designs for every gas appliance to ensure ultimate safety and peace of mind for your family.

Outstanding Features

of Napoleon's Direct Vent Technology

Direct Vent System

1. Zero clearance to combustible framing*
2. Forced convection heated room air
3. Radiant heat
4. High Heat Ceramic or Tempered Glass increases the radiant heat that is dispersed throughout the room. Save up to 30% on energy costs with radiant heat and Zone Heating
5. Cool room air is naturally drawn through the lower opening, circulates around the firebox, and expels into the living space as warm air
6. Optional air circulating variable speed blower with high temperature bearings increases efficient heating
7. Advanced ceramic burner system (selected models)
8. MIRRO-FLAME® Porcelain Reflective Radiant Panels further increase radiant heat (optional on most models)
9. Advanced burner technology produces the most realistic flames in the industry
10. Sealed combustion chamber
11. Optional rear exhaust (selected models)

12. Efficient heat exchange system
13. Combustion air inlet
14. Flue gas outlet

With over 35 years of research and development, Napoleon® has perfected direct vent technology to offer you a fireplace, stove or insert that easily fits into your lifestyle.

With Napoleon's direct vent technology, you can design and install your fireplace in unique locations where it wasn't possible before with traditional masonry fireplaces. Even your basement can be transformed into a warm, inviting oasis for your family and friends to enjoy.

Whether you are renovating, building or replacing an inefficient fireplace product, Napoleon® helps guide you in the right direction to find the product that's right for you and your home. Napoleon® Fireplaces are a smart investment that will bring many years of affordable luxury to you and your family.

*See installation manual for details

Direct Vent Power Venting System

1. Suitable for exhaust products with various vent diameters
2. Installation friendly maintenance free durable construction
3. Blower mounted outside at terminal with WHISPER QUIET® operation inside
4. Terminates above or below the fireplace to allow more freedom and versatility for direct vent installations
5. No hoses to terminal
6. Ability to "snake" either up, down or around objects (ie: behind stairways)

Napoleon's power venting system allows more freedom and versatility for direct vent installations. The option of having the termination above or below the fireplace, along with the ability to "snake" either up or down, allows installation when the desired fireplace location is a great distance away from an outside wall. The blower that pulls the burned gases from the fireplace is mounted outside at the terminal which provides WHISPER QUIET® operation inside the home.

Consult your owner's manual for complete installation instructions and proper clearances to combustible materials. Check all local and national building codes and gas regulations. All specifications are subject to change without prior notice due to on-going product improvements. Products may not be exactly as shown. Flame height and activity is influenced by varying vent configurations and may not appear as shown. Napoleon® is a registered trademark of Wolf Steel Ltd. © Wolf Steel Ltd. EnerGuide - A Canadian efficiency standard based on frequent, short start-up and cool-down cycles. All appliances sold in Canada are subject to this EnerGuide rating system. AFUE - A US efficiency standard (Department of Energy) based on extended on/off cycles, more typical of fireplace usage. Steady State - Reflects the highest possible overall heating efficiency. Product images may vary due to safety barrier regulations coming into effect January 2015.
