BIS HIGH-EFFICIENCY EPA-CERTIFIED WOOD-BURNING FIREPLACES

N

QUALITY. STYLE. EFFICIENCY.

INSPIRATION MEETS FUNCTION

■ As beautiful as they are practical, the entire line of high-efficiency wood-burning fireplaces from Security Chimneys builds on years of experience in design and functionality. From an elegant, traditional favorite to a sleek, contemporary attraction, a Security Chimneys fireplace creates an instant focal point—a centerpiece admired and treasured for its beauty as well as its performance. And, every high-efficiency wood-burning fireplace from Security Chimneys is EPA*-certified, which means that you can count on dependable warmth with the added bonus of responsible burning. Embrace the intimate atmosphere of a Security Chimneys fireplace.

2

Available in a wide array of heating capacities, Security Chimneys fireplaces produce just the right amount of warmth and ambiance to bring comfort to any setting. From basements to bedrooms or any living area, a Security Chimneys fireplace creates a setting and sets a mood that goes unrivaled.

BEAUTY

A real wood fire is incomparable. Flickering flames, smoldering embers and crackling logs create an ambiance that can't be achieved with other fuels. Available in a selection of styles with customizable features, a Security Chimneys fireplace can be tailored to fit any décor.

EFFICIENCY

Employing advanced technologies with a lifetime of experience, fireplaces from Security Chimneys offer the ultimate in wood-burning efficiency. From state-ofthe-art airtight combustion chambers to Time-Delayed Air Boost systems to forcedair heating systems, Security Chimneys wood-burning fireplaces represent a giant leap forward in technology.

A MIGHTY WONDER — BIS $NOVA^{TM}$

■ With its clean-face design and extensive viewing area, the BIS Nova[™] fireplace is a modern marvel. A compact yet open firebox accepts logs up to 18 inches long for large flames, long burn times and additional warmth. Stunning, elegant refractories create a beautiful, fashionable, yet traditional appearance certain to produce a conversation piece in any setting.

The BIS Nova, with all its charm and capability, truly is a contemporary wonder.

BIS Nova[™] shown

Firebox accepts up to 18" logs for greater heat output and longer burn times

All-in-one Double Air Combustion control includes air boost for faster wood ignition and main air control for variable heat output

Ceramic glass for added safety and optimum heat transfer

BEAUTY

Clean-face, louverless installation allows you to focus on the beauty of the fire

Expansive rectangular 13-1/4" x 20" glass area allows unobstructed views of the fire

Textured refractory-lined firebox recreates a gorgeous masonry look

Black or brushed nickel doors

EFFICIENCY

Pre-wired factory-installed 130-CFM blower with easy access for simple field installation

Efficient air wash system keeps glass clean

Airtight combustion chamber for maximum wood-burning efficiency

EPA-certified

Zero clearance to combustible materials

Knock-out sides and back for straightforward connection to forced-air system

Convenient compact size allows multiple installation options

Certified with SecureTemp[™] ASHT+ insulated stainless steel chimney or air-cooled pipe 6[™] I.D.

OPTIONS

Gravity air distribution kit

Forced-air kit

Cast-surround kit (shown at left)

Masonry installation with TUBINOX rigid stainless steel liner

6" to 7" SecureTemp ASHT increaser

Outside air kit connection for optimum efficiency

AN EXPRESSION OF BEAUTY — BIS ULTIMA[™]

■ With its elegant styling and unobstructed views of the fire, the BIS Ultima[™] is a true symbol of splendor. From striking louvers to attractive cast-iron log retainers, the addition of a BIS Ultima fireplace creates an instant focal point in any room.
But the BIS Ultima is more than just beautiful. An airtight combustion chamber helps create maximum wood-burning efficiency, and an all-in-one control system helps manage wood consumption and allows for faster ignition. The BIS

Ultima brings a whole new world of warmth and beauty to any home.

BIS Ultima[™] shown

Comfort

All-in-one Double Air Combustion control includes air boost for faster wood ignition and main air control for variable heat output

Heat-resistant handle is always cool to the touch

Ceramic glass for added safety and optimum heat transfer

Firebox fully insulated on top and sides to maximize heat transfer

BEAUTY

European cast-iron single door for unobstructed views of the fire

Ornate louvers create an eye-catching design

Decorative cast-iron log retainers are beautiful in and out of use

Textured refractory-lined firebox fashions a traditional masonry look

Available in two door styles—Victorian or Contemporary—in 24K gold-plated, brushed nickel or black

EFFICIENCY

Outside air kit connection for optimum efficiency

Efficient air wash system keeps glass clean

Airtight combustion chamber for maximum wood-burning efficiency

Knock-out sides and back for straightforward connection to forced-air system

EPA-certified and Washington State-certified

Zero clearance to combustible materials

Certified with SecureTemp[™] ASHT+ insulated stainless steel chimney or air-cooled pipe 6" I.D.

OPTIONS

200-CFM blower

Rigid firescreen

Gravity air distribution kit

Masonry installation with TUBINOX rigid stainless steel liner

A STUDY IN SOPHISTICATION — BIS ULTIMA[™] CF

■ With contemporary elegance and style, the BIS Ultima[™] CF presents unobstructed views of the fire for the ultimate hearth experience. Featuring a sleek, clean-face design and a modern, smooth, refractory-lined firebox, the BIS Ultima CF adds a touch of sophisticated elegance to any room. And it's as efficient as it is beautiful. The BIS Ultima CF features an airtight combustion chamber for maximum wood-burning efficiency, and an all-in-one control system allows for faster ignition while helping manage wood consumption. The BIS Ultima CF creates the perfect atmosphere of style and comfort in any home.

BIS Ultima CF shown with louvers

All-in-one Double Air Combustion control includes air boost for faster wood ignition and main air control for variable heat output

Heat-resistant handle is always cool to the touch

Ceramic glass for added safety and optimum heat transfer

Fireplace fully insulated on top, sides and bottom to maximize efficiency

BEAUTY

Choice between clean-face panel* option for a contemporary design or ornate louvers for a more traditional look

Smooth refractory-lined firebox fashions a contemporary look

EFFICIENCY

Outside air kit connection for optimum efficiency

Efficient air wash system keeps glass clean

Airtight combustion chamber for maximum wood-burning efficiency

Knock-out sides and back for straightforward connection to optional forced-air system

EPA-certified and Washington State-certified

Zero clearance to combustible materials

Certified with SecureTemp[™] ASHT+ insulated stainless steel chimney or air-cooled pipe 6" I.D.

Factory-installed 175-CFM blower with easy access for simple field installation

OPTIONS

Rigid firescreen

Gravity air distribution kit

Masonry installation with TUBINOX rigid stainless steel liner

Forced-air kit

*Requires gravity air distribution kit installation. **Gravity air distribution kit not shown.

A MASTER OF COMFORT — BIS ULTRA[™]

■ The BIS Ultra[™] not only offers an elegance that distinguishes it from others, but also represents a higher standard of energy efficiency. Delivering up to 60,000 BTUs per hour and a burn time of up to eight hours, the BIS Ultra can warm an area of up to 2,000 sq. ft. The perfect inspirational balance of form and function, the BIS Ultra introduces a new dimension of beauty and warmth to the home.

BIS Ultra[™] shown

COMFORT

Non-catalytic combustion for maintenance-free operation

Ceramic glass for added safety and optimum heat transfer

BEAUTY

Sturdy, rustic cast-iron doors create an eye-catching charm

Available in two door styles—Victorian or Contemporary—in 24K gold-plated or black

Ornate louvers produce a striking design

Decorative cast-iron log retainers are beautiful in and out of use

Textured refractory-lined firebox fashions a traditional masonry look

Removable top louver and frame allow for a clean-face appearance

EFFICIENCY

Outside air kit connection (4" I.D. insulated flex pipe x 10' long) for optimum efficiency

Dual-handle ash drawer with lid allows for easy removal of ashes without the mess

Efficient air wash system keeps glass clean

Airtight combustion chamber for maximum wood-burning efficiency

Knock-out sides and back for straightforward connection to forced-air system

EPA-certified

Zero clearance to combustible materials

Certified with SecureTemp[™] ASHT+ insulated stainless steel chimney or air-cooled pipe 6" I.D.

OPTIONS

200 CFM blower

Rigid firescreen

Clean-face option

Gravity air distribution kit

Masonry installation with TUBINOX rigid stainless steel liner

A DYNAMIC PERFORMER — BIS PANORAMA[™]

With a distinctive, high, aspect ratio, single-door feature and stunning refractory, the BIS Panorama[™] fireplace delivers more heat and performs better than any similar fireplace on the market. With an output of up to 70,000 BTUs per hour and a burn time of up to eight hours, the BIS Panorama can warm an area of up 2,500 sq. ft.—all while allowing unobstructed views of enchanted, dancing flames.

BIS Panorama[™] shown

High-capacity output quickly warms rooms for rapid heating

Easy access to combustion controls for optimum comfort management

Ceramic glass for added safety and optimum heat transfer

BEAUTY

Vertically designed door, combined with a herringbone refractory brick, gives a stunning view of the fire

Single cast-iron door available in 24K gold-plated, brushed nickel or black

Textured refractory-lined firebox fashions a traditional masonry look

Attractive, cast-iron log retainers enhance the fire's mesmerizing dance

EFFICIENCY

Outside air kit connection for optimum efficiency

Airtight combustion chamber for maximum wood-burning efficiency

Efficient air wash system keeps glass clean

Dual-handle ash drawer with lid allows for easy removal of ashes without the mess

Highly efficient post-combustion with large catalytic combustor

Zero clearance to combustible materials

Knock-out sides and back for easy connection to forced-air system

EPA-certified and Washington Statecertified

Certified with SecureTemp[™] ASHT+ insulated stainless steel chimney or air-cooled pipe 7" I.D.

OPTIONS

200-CFM blower

Rigid firescreen

Clean-face option

Gravity air distribution kit

Masonry installation with TUBINOX rigid stainless steel liner

AN OUTSTANDING ENCORE — BIS TRADITION[™] CE

■ Fashioned after the BIS Tradition[™] fireplace, the BIS Tradition[™] CE fireplace maintains all the key performance features of its predecessor, but its compact size makes it ideal for smaller spaces. The BIS Tradition CE features ceramic glass for added safety and optimum heat transfer and an airtight combustion chamber for maximum efficiency. What's more, its single-door design allows for ultimate views of the fire. An array of optional façades and doors means the BIS Tradition CE can be customized to suit the décor of any home.

BIS Tradition[™] CE shown

Comfort

Non-catalytic combustion for maintenance-free operation

Ceramic glass for added safety and optimum heat transfer

Firebox capacity of 2.0 cu. ft. withstanding up to 55,000 BTU/hr. and eight hours of burn time to heat areas between 1,000 and 1,500 sq. ft.

BEAUTY

Single door allows an unobstructed view of the fire

Decorative cast-iron log retainers are beautiful in and out of use

Beautiful refractory simulates an authentic masonry hearth

Available in black, brushed nickel and 24K gold-plated façades and steel or cast-iron hammered steel doors

EFFICIENCY

Outside air kit connection (4" I.D. x 10' long insulated flex and resister) for optimum efficiency

Efficient air wash system keeps glass clean

Convenient 36"W x 36"H x 25"D size allows for multiple installation options

Pre-wired heat-activated 200-CFM blower circulates warmth around the room

Knock-out sides and back for straightforward connection to forced-air system

Airtight combustion chamber for maximum woodburning efficiency

All-in-one Double Air Combustion control includes air boost for faster wood ignition and main air control for variable heat output

EPA-certified and Washington State-certified

Zero clearance to combustible materials

Certified with SecureTemp[™] ASHT+ insulated stainless steel chimneys or air-cooled pipe 6" I.D.

OPTIONS

Gravity air distribution kit

Masonry installation with TUBINOX rigid stainless steel liner

An Advanced Entertainer — BIS TraditionTM

■ Impressive in size and performance, the BIS Tradition[™] fireplace is one of the biggest, most beautiful, EPA-certified, zero-clearance, wood-burning fireplaces available on the market. The advanced engineering of the BIS Tradition, combined with its expansive, unobstructed view and up to eight hours of burn time, means spending more time enjoying the fire than taking care of it. In addition, its heat-activated blower is hidden in a graceful design, providing energy-efficient heat distribution without sacrificing the natural aesthetics of a traditional masonry hearth.

BIS Tradition™ shown

One of the largest non-catalytic combustion-controlled fireplaces available for outstanding heating performance

Large, open firebox allows up to 30" log capacity and can withstand up to 80,000-BTU cordwood heat output

Multiple heat distribution capacity creates customizable warmth levels for perfect comfort

Ceramic glass for added safety and optimum heat transfer

BEAUTY

Textured refractory-lined firebox recreates a masonry look

Arch design façade and door give the fireplace a traditional appeal for formal applications

Decorative cast-iron log retainers look great whether the hearth is in use or idle

Available with four optional façades and doors in black, brushed nickel, 24K gold-plated or hammered steel

EFFICIENCY

Outside air kit connection (4" I.D. insulated flex pipe x 10' long) for optimum efficiency

Up to 63% efficiency through natural convection

Time-Delayed Air Boost system allows for carefree ignition

Airtight combustion chamber for maximum wood-burning efficiency

Knock-out sides and back for straightforward connection to forced air system

Efficient air wash system keeps glass clean

Zero clearance to combustible materials

Heats up to 2,500 square feet with burn times of up to eight hours

Pre-wired heat-activated 200-CFM blower circulates warmth around the room

EPA-certified

Certified with SecureTemp[™] S-2100+ or GX+ insulated stainless steel chimneys or air-cooled pipe 7[™] I.D.
